

Kato Samuel Raymond

Full-Stack Software Engineer | Flutter Mobile Developer | Backend Engineer
Kampala, Uganda | katosamuelraymondmarvinhosborn@gmail.com | github.com/katosamuelraymond | linkedin.com/in/kato-samuel-1657a9207

PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Engineer and Mobile Developer completing a **Bachelor of Business Computing (Hons)** at Makerere University Business School (MUBS), Uganda. Expected Graduation: June 2026. Experienced in designing and deploying scalable web and mobile applications using Flutter, Next.js, React, Laravel, NestJS, and Node.js. Strong database expertise in PostgreSQL and MySQL. Delivered production-grade systems across finance, agriculture, retail, insurance, and education sectors. Skilled in REST API development, system architecture, role-based access control, CI/CD automation, and Linux server deployment.

SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, Tailwind CSS

Mobile: Flutter, Dart, Offline-first Architecture, Hive

DevOps: Docker, GitHub Actions, Vercel, Linux (Ubuntu)

Integrations: Cloudinary, Supabase Storage, REST APIs

Backend: Laravel, NestJS, Node.js, PHP, REST APIs

Databases: PostgreSQL, MySQL, Supabase, Firebase, Prisma ORM

Auth / Security: JWT, Laravel Sanctum, RBAC, Spatie Permissions

Practices: Agile, Scrum, MVC, Microservices, Git / GitHub

Keywords: Full Stack Development, Software Engineering, Mobile Development, REST APIs, Microservices, Scalable Systems, Cloud Deployment, Agile Development, Backend Engineering, Flutter Developer, Next.js Developer, Laravel Developer, NestJS, PostgreSQL, MySQL

PROJECT EXPERIENCE

Creative Cube - Full-Stack SaaS Platform | *Next.js, TypeScript, Prisma ORM, PostgreSQL, Cloudinary, Tailwind CSS, Vercel*

- Architected a production-ready SaaS platform with server-component architecture, structured Prisma database migrations, and Cloudinary media management.
- Implemented automated Vercel deployment and a normalised PostgreSQL schema supporting role-based content access.

GitHub: <https://github.com/katosamuelraymond/creative-cube-next>

AgroLink - Agricultural Supply Chain Mobile App | *Flutter, Dart, Hive (NoSQL), Offline-first Architecture*

- Engineered an offline-first Flutter application connecting farmers, buyers, and transporters in low-connectivity rural environments using Hive local storage.
- Designed to reduce post-harvest losses and improve agricultural trade efficiency across Uganda.

GitHub: <https://github.com/katosamuelraymond/agrolink>

POS System - Enterprise Point-of-Sale and ERP | *Laravel, React, MySQL, Laravel Sanctum, Spatie Permissions*

- Built a full-featured POS and ERP platform with multi-branch support, real-time inventory tracking, financial reporting, and fine-grained RBAC for multiple user roles.
- Integrated Laravel Sanctum for secure API token authentication across a decoupled React frontend.

GitHub: https://github.com/katosamuelraymond/POS_SYSTEM

Fintrack - Personal Finance Mobile Application | *Flutter, Dart, Supabase (PostgreSQL)*

- Built a cross-platform mobile finance manager with income and expense tracking, budget goal setting, and visual analytics dashboards.
- Integrated Supabase for real-time data synchronisation and secure multi-device authentication.

GitHub: <https://github.com/katosamuelraymond/Fintrack>

Savings SACCO Management System | Laravel, MySQL, Role-Based Access Control

- Designed a full SACCO platform for member registration, savings, loan applications, repayment schedules, and automated financial statements.
- Replaced entirely manual bookkeeping with automated workflows, reducing administrative overhead significantly.

GitHub: <https://github.com/katosamuelraymond/savings-sacco>

E-Learning Platform - LMS | Laravel, MySQL, Tailwind CSS

- Developed a comprehensive LMS supporting course creation, online examinations, assignment submission, and student performance tracking.

GitHub: <https://github.com/katosamuelraymond/elearning-platform>

Zila Insurance Website - CMS Platform | Laravel 11, React, Inertia.js

- Built a corporate website with integrated CMS enabling non-technical staff to manage pages, publish articles, and update content independently.
- Implemented a React frontend with Inertia.js for a seamless SPA experience backed by a Laravel 11 API.

GitHub: <https://github.com/katosamuelraymond/zilawebsite>

EDUCATION

Bachelor of Business Computing (Hons)

Expected: June 2026

Makerere University Business School (MUBS), Kampala, Uganda

Focus: Business Systems Analysis, Software Development, Database Systems, Enterprise Computing

PROFESSIONAL ATTRIBUTES

- Strong analytical and problem-solving skills with ability to translate business requirements into reliable, scalable software solutions.
- Proven experience delivering end-to-end systems across finance, agriculture, retail, insurance, and education sectors.
- Skilled in NestJS modular architecture, microservices-ready API design, and scalable backend system structures.
- Committed to code quality, security, performance optimisation, and documentation best practices.
- Self-motivated team player who rapidly learns and applies emerging technologies in fast-paced environments.

DECLARATION

I declare that the information provided in this curriculum vitae is true and accurate to the best of my knowledge. I am available for interview at your earliest convenience.
